Experience

Web Developer, sixladders

July 18 – July 24, 2004

- Developed a platform where the placement cell can invite thousands of students and faculty to manage placements.
- Enabled placement cell to post job descriptions on behalf of companies; students can apply based on company-specific requirements.
- Integrated exclusive student registration through an invitation link sent by the placement cell.

Developer, NextTech Lab

Oct 2023 - August 2024

- Participated in a coding community focused on collaborative learning, challenge-solving, and building innovative projects.

Projects

Crypto UPI

July 2024

Platform supporting both crypto and UPI transactions, including concept for crypto-to-UPI transfers.

- Developed instant loan feature with profit potential of 5-10% and collateral-free crypto transactions.
- Enabled transactions via QR codes for payments in cryptocurrency and INR, supported by AI bot financial advisor.

Eveplora

November 2024

Eveplora is a platform that combines 3D technology and AI-powered tools to enhance creativity and simplify hackathon and event participation.

- We built Eveplora using Google Photorealistic 3D Maps and Three.js for advanced 3D rendering.
- We integrated Sambanova's lightning-fast AI for idea generation.

Rakshak

April - May 2024

Healthcare application for secure sharing of medical documentation with hospitals and doctors.

- Enhanced file exchange efficiency by 40% for healthcare professionals.
- Implemented access revocation features, reducing unauthorized data access by 50%.
- Developed AI bot to assist with minor issues, providing quick solutions.

E-mart (Online Retail Website)

June 2024

An E-commerce website that facilitates seamless buying and selling with a user-friendly UI/UX.

- Integrated AI-powered product recommendation system with high accuracy.
- Developed features for wishlist, cart, and one-click checkout.
- Built an analytics dashboard for real-time insights for administrators.

Education

SRM University, Amaravati

Oct 2022 – Ongoing

B.Tech in Computer Science

- CGPA: 8.65/10.0

ACHIEVEMENTS
